

Refusal by Camridge CC even to consider the evidence against their speed cameras

At 09:55 10/09/2018,

Subject: RE: Most Urgent - re your £500k to £600k proposal to upgrade your safety cameras

Dear Mr Francis,

Thank you for your letter dated 9th September 2018 relating to our proposals to upgrade the safety cameras in Cambridgeshire. While we respect the comments you have made about the analysis of safety camera data nationally, we are satisfied with the analysis that has been undertaken in putting forward the recommendations in the report.

In terms of your own analysis, we would welcome a copy for future reference once it is published.

Kind regards,
Richard.
